

Environmental Protection Agency

§ 124.212

(f) In their written comments and during the public hearing, if held, interested parties may provide comments on the draft permit decision. These comments may include, but are not limited to, the facility's eligibility for the standardized permit, the tentative supplemental conditions you proposed, and the need for additional supplemental conditions.

§ 124.209 What are the requirements for responding to comments?

(a) At the time you issue a final standardized permit, you must also respond to comments received during the public comment period on the draft permit. Your response must:

(1) Specify which additional conditions (*i.e.*, those in the supplemental portion), if any, you changed in the final permit, and the reasons for the change.

(2) Briefly describe and respond to all significant comments on the facility's ability to meet the general requirements (*i.e.*, those terms and conditions in the uniform portion) and on any additional conditions necessary to protect human health and the environment raised during the public comment period or during the hearing.

(3) Make the comments and responses accessible to the public.

(b) You may request additional information from the facility owner or operator or inspect the facility if you need additional information to adequately respond to significant comments or to make decisions about conditions you may need to add to the supplemental portion of the standardized permit.

(c) If you are the Director of an EPA permitting agency, you must include in the administrative record for your final permit decision any documents cited in the response to comments. If new points are raised or new material supplied during the public comment period, you may document your response to those matters by adding new materials to the administrative record.

§ 124.210 May I, as an interested party in the permit process, appeal a final standardized permit?

You may petition for administrative review of the Director's final permit decision, including his or her decision

that the facility is eligible for the standardized permit, according to the procedures of § 124.19. However, the terms and conditions of the uniform portion of the standardized permit are not subject to administrative review under this provision.

MAINTAINING A STANDARDIZED PERMIT

§ 124.211 What types of changes may I make to my standardized permit?

You may make both routine changes, routine changes with prior Agency approval, and significant changes. For the purposes of this section:

(a) "Routine changes" are any changes to the standardized permit that qualify as a class 1 permit modification (without prior Agency approval) under 40 CFR 270.42, appendix I, and

(b) "Routine changes with prior Agency approval" are for those changes to the standardized permit that would qualify as a class 1 modification with prior agency approval, or a class 2 permit modification under 40 CFR 270.42, appendix I; and

(c) "Significant changes" are any changes to the standardized permit that:

(1) Qualify as a class 3 permit modification under 40 CFR 270.42, appendix I;

(2) Are not explicitly identified in 40 CFR 270.42, appendix I; or

(3) Amend any terms or conditions in the supplemental portion of your standardized permit.

§ 124.212 What procedures must I follow to make routine changes?

(a) You can make routine changes to the standardized permit without obtaining approval from the Director. However, you must first determine whether the routine change you will make amends the information you submitted under 40 CFR 270.275 with your Notice of Intent to operate under the standardized permit.

(b) If the routine changes you make amend the information you submitted under 40 CFR 270.275 with your Notice of Intent to operate under the standardized permit, then before you make the routine changes you must:
